

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
MONITORING REQUIREMENTS NOT MET FOR**

BETHLEHEM, WV3303514

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 2/1/2026 and 2/28/2026, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the required monitoring and the compliance period.

Required Monitoring	Compliance Period
3A, MONITORING, ROUTINE, MAJOR (RTCR) Valid Compliance Total Coliform Sample(s) Not Reported as Required	2/1/2026 to 2/28/2026

What happened? What is being done? (Describe corrective action)

During a period of transition, Bethlehem received a violation for non-compliance in required monthly water sampling during the month of February 2026. Daily testing is done within the Village to ensure safe water quality. We immediately corrected the issue and continue to provide quality service to our customers but are required to report said violations to our residents.

For more information, please contact Village Clerks at 304.233.9527
(Contact name) (Phone number)
Or PO Box 6339, Wheeling, WV 26003
(Mailing address)

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
